Detail view

#### **The comfortable hands-free phone with brilliant sound.**

The Gigaset C380 is a reliable allrounder that lets you talk to friends and family with true sound clarity. The convenient hands-free functionality means you can stay comfortable while talking, and you'll never miss a word thanks to the innovative High Sound Performance™ technology. With up to 25 hours of talk time and 240 hours of standby, you have the freedom to enjoy your conversations as long as you'd like. And almost in any room you like: The Gigaset C380 gives you the chance to add up to 4 handsets for even more convenience. An easy-to-use, full-color menu and a phonebook for 150 entries ensures that all the important details are at your fingertips. The Gigaset C380 also makes telephony greener with its energy-saving and radiation-free¹ ECO DECT technology.

Designed to meet the needs of busy lifestyles, the Gigaset C380 combines brilliant sound quality with an attractive, modern design – perfect for multi-taskers looking for high performance.

#### **High Sound Performance™: a new experience in sound**

The innovative HSP™ technology allows you to catch every detail not only while holding the receiver, but also while talking hands-free. Experience the excellent voice clarity for yourself with the Gigaset C380.

#### **Hands-free talking in brilliant sound quality**

The hands-free function of the Gigaset C380 is a great solution for multi-taskers with busy lifestyles. With this phone you can do everything you have planned – or just lie back and relax – and still be able to chat with friends or family in brilliant sound quality. Featuring both a multidirectional speakerphone and a headset connection via 2.5mm jack, the possibilities are limitless.

### **Stay in touch with a talk time of up to 25 hours**

Whether you have a lot to say to your best friend or want to chat with everyone individually, the Gigaset C380 never lets you down: enjoy up to 25 hours of talk time and up to 240 hours of standby.

### **More space for friends and family: up to 150 entries in the phonebook**

Keep track of all your contacts: the Siemens Gigaset C380 features a spacious phonebook that lets you store the numbers of up to 150 people. Handling all these details is wonderfully simple. You can effortlessly find, edit or delete your contacts thanks to the self-explaining menu and an easy-to-read illuminated color display. The Gigaset C380 is also expandable to up to 4 handsets – so you have all those you want to talk to at reach, wherever you are.

### **ECO DECT for energy savings and radiation-free<sup>1</sup> telephony**

The energy-saving power supply of the Gigaset C380 consumes less electricity<sup>2</sup>, so it saves you money and is better for the environment. Like all Gigaset cordless phones, it also variably reduces the transmitting power from the handset to base station depending on their distance apart. You can also reduce the transmitting power of the Gigaset C380's base station by 80%<sup>3</sup> simply by selecting the ECO Mode. Furthermore, radiation-free\* ECO Mode Plus slashes the transmitting power by up to 100% when the handset is in standby. This way, you can enjoy a more energy-efficient way of staying connected with your family and friends.

The Gigaset C380 is the comfortable and self-explaining phone with brilliant sound quality that offers you an easy way to make calls with friends and family.
